## HOW TO MEASURE BOTTOMS

The best way to size up is find a garment of your own that fits well, lay your item out flat then measure it and compare it to our size guide.

Length (B) measurement is taken from the top of the waistband to the bottom.

Waist (A-CM) measurement is taken from around the elastic waistband and is relaxed measurement of the actual finished garment.

OR

Waist (A-INCH) measurement is to be taken from **your body** using your belly button as a guide.
